

CANNABIS FIRE SAFETY Workshops

Save the date!

Join us at a workshop on Cannabis Fire Safety

From growing to processing, extraction to selling, each stage of the cannabis industry presents a unique set of fire and life safety challenges. Join us to learn from the **NFPA** on current and expected fire codes and **Denver Fire Department** on their experiences conducting fire safety inspections plus what you need to know about first responder safety. The workshops are presented at three separate locations and dates in October.

Mark your calendar for the location closest to you.
Registration opening soon!

Tuesday, October 16 - Leduc County, Alberta
Wednesday, October 17 - Calgary, Alberta
Thursday, October 18 - Langley, BC
