January 24, 2019

To whom it may concern,

The Lake Country Fire Department is hosting The Volunteer Firefighters Association of BC Seminar on May 24th – 26th, 2019. This training event has been part of BC history paving the way to help give hands on training and confidence to firefighters all over BC. This will be the first time this training event has been held in Lake Country. During the 2 days we could expect over 300 people from all over BC to take part in this exciting event. We are asking for departments and industry stake holders to come together and participate in unique training sessions and enjoy some down time with good food and entertainment.

Lake Country along with other smaller communities around BC have a booming tourism industry and are increasingly becoming desired areas to live. This magnifies the need to offer specialty training to Volunteers and Paid On-Call Departments like Lake Country in areas such as Aircraft Rescue, Auto Extrication, Forestry and Live Fire. Many smaller fire departments in BC don't have the opportunity to have training like this or use the best equipment. Our goal is to provide great hands on training so each firefighter can bring something back to their department. From our highly experienced Instructors, participants will be able to go home and demonstrate different on the job techniques and share what they learned with their fellow firefighters.

To make this the most successful weekend possible we are calling to our industry and community partners to help support us.

Thank you for your time and consideration in participating in Lake Country's first Annual Training Seminar for Volunteer and Paid On-Call Fire Fighters.

Sincerely,

Eric DeGelder
Event Coordinator
